## Fire Menaces Residential Block.

### Splendid Efforts of Fire Dept. Prevent Disastrous Results

Splendid work by the Fire Department prevented what might have been a very serious fire last Saturday afternoon, when, with a fifty mile an hour wind raging, fire broke out in the coal shed of Mr. and Mrs. Dave Edwards.

Hearing the crackling of flames, Mrs. C. S. Mortimer turned in the alarm, but the firemen were unable to save the small buildings. Efforts were concentrated on the residences nearby and the barn on the Brusso property, with the result that all were saved. The strong wind carried burning debris for some distance and houses over a block away caught on fire, but with no serious damage.

It is thought that the action of the sun through glass was the cause. Seven buildings, including coal sheds, a play house and two garages, were totally destroyed, the loss being estimated at \$500.00. Insurance was carried.

Mr. and Mrs. Dave Edwards, Mr. and Mrs. A. Brusso and Mr. and Mrs. Chas. Mortimer wish to thank the members of the Fire Brigade and any others, whose splendid efforts saved their homes and the Brusso garage from the consequences of what might have been a serious fire.

### Fire Threatens to Gut Bergen District.

A bush fire which started Sunday at the sawmill operated by Bob Stevens and Hale Gochee west of Bergen has been raging for three days and threatens all the homes in that district. A gang, said to number over 200 men, is fighting desperately in an endeavor to stem the fire and save further damage. It is alleged that the fire was started by a flying spark from the engine at the mill. The mill was quickly gutted and the fire started in the bush nearby.

### Tenders Wanted.

Tenders will be received by the undersigned until 6 p.m. July 27, 1936, for: Kalsomining of four classrooms, two hallways and their entries, and the basement playground, in the Didsbury Public School.

For particulars apply:

A. C. Fisher, Sec.-Treas.  
Didsbury S.D. No. 652  
Didsbury, Alberta.

### BIRTHS

at Didsbury General Hospital

July 8, to Mr. and Mrs. Theodore Radke a son.

July 11, to Mr. and Mrs. Arnold Blain a daughter.

July 13, to Mr. and Mrs. Herbert Goetjen, Carstairs, a son.

### Obituary.

JOHN LUFT

Funeral services were held Monday afternoon for Peter Luft, who died at Calgary Saturday morning after two days sickness in a Calgary hospital.

Mr. Luft, who was 70 years of age, was born in Russia. Coming to Canada 34 years ago, he settled at Calgary, where he resided for 13 years. The family then moved to Didsbury and for the past 21 years have farmed here.

Mr. Luft is survived by five sons: Henry, of Carbon, and John, Alex, Phillip and Victor, all of Didsbury; and three daughters: Mrs. A. Befus, Mrs. H. Gerlitz and Lily, at home.

The funeral was held from the Evangelical Church, with Rev. Kroenig of Calgary in charge. Pall bearers were: Adam Luft, John Befus, Elton, John Befus, Didsbury, Henry Luft, Carstairs, George Luft, Calgary, and Peter Luft, DeWinton.

HENRY B. JACKSON

The death of Henry B. Jackson, of Westerdale, occurred Tuesday evening, July 7, at the home of his brother, Arthur, after a lingering illness. Mr. Jackson was 61 years of age. Funeral services were held last Wednesday afternoon at the Westerdale School and interment took place at the Westerdale Cemetery.

Jim Hill of Calgary Jenkins' office is relieving at the local Groceria while Tom Roys is on a vacation.

## Fingers Cut Off by Planer

Lief Erickson, of Bergen lost four fingers last week, when he caught his hand in a planer he was operating at the Ejard Eliason mill. Dr. Clarke was called and the last reports state that the hand is recovering nicely.

## WEDDINGS

TRAUB-FREY

The Community Church at Sibbald, Alberta, was the scene of a pretty wedding on July 2, when Pearl, daughter of Mr. and Mrs. Ephraim Frey of Acadia Valley, became the bride of Ernest Traub, of Didsbury. Rev. W. M. Redfield, of Alsask, Saskatchewan, performed the ceremony, assisted by Rev. A. Traub, father of the bridegroom.

A prelude solo, "Garden of Grace" was rendered by Mrs. Peter Dyak, accompanied at the organ by Miss Mildred Traub, sister of the groom.

The bridal party entered the church to the strains of Mendelssohn's "Wedding March," the bride on the arm of her father, who gave her in marriage. Miss Ruby Traub, sister of the groom, attended as bridesmaid, and Miss Ruby Frey, of Calgary, sister of the bride, as maid-of-honor. Mr. Grant Bingham was groomsmen. Messrs. Alton Frey and Howard Krampien, brother and cousin of the bride, acted as ushers.

During the signing of the register Rev. Harley Traub sang "Love is Shining," by Hewitt.

The bride was attired in white georgette trimmed with lace. She wore a wedding veil and carried a bouquet of pink roses. The maid-of-honor wore flowered georgette with white accessories, while the bridesmaid was dressed in mauve organdie with tan accessories. Both carried pink and white carnations. For travelling the bride chose a blue celanese crepe suit with grey accessories.

Following the ceremony the guests drove to the home of the bride, where a reception was held, supper being served on the lawn under a bell-hung arch; the table being centred with a 4-tier wedding cake. The toast "To the Bride" was given by Rev. W. M. Redfield and was responded to by the bridegroom.

Guests from a distance for the event were: Miss Ruby Frey, Calgary; Mr. and Mrs. A. Snyder, Miss Madlin Snyder and Mr. Loyal Snyder, Didsbury; Mr. and Mrs. Bingham, of Loverna; Mr. and Mrs. A. Traub, Velma, Ruby and Mildred Traub, Didsbury, and Rev. Harley Traub, Cremona, Alberta.

Mr. and Mrs. Traub, accompanied by the bride's parents, Mr. and Mrs. E. Frey, left by motor for Ontario. They will be at home in Didsbury after September 1, where Mr. Traub teaches in the town school.

McCOLL-HUNSPERGER

The marriage of Lola, daughter of Mr. and Mrs. Alvin Hunsperger, of Didsbury, and Emerson McColl, son of Mrs. E. McColl, of Westlock, and the late John McColl, took place at Knox United Church Manse, Calgary, 5:30 p.m. Friday, July 10, Rev. Warwick F. Kelloway officiating.

The slim, fair bride, was a graceful figure in a gown of delicate pink net and taffeta, with a bertha collar that fell over her arms. Her shoes and gloves were white, and she carried a bouquet of pale pink roses.

Mr. and Mrs. J. P. Costello witnessed the ceremony, the matron-of-honor wearing a becoming gown of printed chiffon in shades of rose and blue with frilled sleeves.

Following a honeymoon at the Pacific coast Mr. and Mrs. McColl will reside at Olds, where they will be at home to their friends after July 21. For travel the bride chose a smart suit of green tweed with which she wore a yellow hat, white accessories and white shoes.

## Canadian Legion Picnic.

Members of the Didsbury branch of the Canadian Legion with their families enjoyed a splendid time on Wednesday afternoon, when they held their annual picnic at the farm of Mr. Wm. Davies on the Little Red river. Games and races of all descriptions were enjoyed, while many took advantage of the fine swimming provided.

HOSEGOOD—EVANS

A quiet wedding was solemnized in St. Cyprian's Church, Didsbury, at 2:30 p.m. Saturday, July 11, when Bessie Jean, daughter of Mr. and Mrs. David Evans, of Didsbury, was united in marriage with Percy Lloyd, son of Mr. and Mrs. James Hosegood, Didsbury. Rev. Neville Blunt, of Innisfail, officiating.

The bride, attired in a smart tweed travelling suit with accessories to match and wearing a corsage of American Beauty roses, entered the church on the arm of her father, while Miss Jo Booker played the Wedding March.

After the ceremony the wedding party, consisting only of immediate relatives of the bride and groom, gathered at the home of the former's parents, where a delightful buffet luncheon was served. Later the happy couple motored to Calgary enroute to Waterton Lakes, Seattle and points south.

The wedding of this popular young couple is of wide interest, and the many friends join in extending to them the very best wishes.

GRACE—NETTAY

A quiet but pretty wedding took place Wednesday, July 8 at 3 p.m. at the home of the groom's brother, Mr. and Mrs. Don Grace, of Olds, when Ida Irene Ruth, fourth daughter of Mr. and Mrs. A. Nettay, became the bride of Karl Daniel Grace, third son of Mr. and Mrs. Isaac Grace, of Didsbury. Rev. J. R. Geeson officiated.

The bride was charming in a gown of glaze blue crepe back satin with white accessories. She wore a white veil caught with orange blossom and carried a pretty bouquet. Miss Bertha Deibert, in a blue swagger suit and also carrying a bouquet, was bridesmaid. The groom was supported by his brother, Robert Grace.

The happy couple will reside on the groom's farm in the Westward Ho district.

## Exhibition Bigger Than For Years

With entries coming in fast, prospects are bright for a very successful fair and exhibition. The management is working hard to make the day a big success and a program of sports and entertainment is promised that will be pleasing to all.

It is expected that exhibits in every class will be larger than before and many items of interest will be seen. Sport fans will have plenty to see as there will be a full program of athletic events, foot races, children's races, horse races and a football game between Didsbury and Bowden. Efforts are being made to have a baseball game in the eve as well as softball. A big dance in the Opera House, following a picture show of special merit, offers a variety of entertainment that should meet the taste of all.

## Local Men in States Car Crash

Definite information has been received on the car accident and injuries sustained by Messrs. Chas. Foss, C. D. Carver and Jim Ruby on their present trip through the United States. The accident occurred at Ida, Minn., about 150 miles south of Winnipeg when a car coming around a corner crashed into that of the Didsbury men. Mr. Foss, driving the local car, was unhurt. Mr. Carver sustained two fractured ribs and both men continued the trip. Mr. Ruby was taken to a Winnipeg hospital where he is suffering from a split kneecap and other bruises. Report states that he is nicely recovering. The accident occurred July 1st.

## Evangelical Church Notes.

Miss Rose Fecker, missionary for many years in China, will be at the Evangelical Church tonight (Thursday) July 16 at 8 o'clock. Miss Fecker will bring a missionary message on China. Come, and get first hand missionary information.—A. S. Caughell, Pastor.

Hemstitching & Fancywork Exchange. Also Specialising in Knitted Suits & Dresses.—Mary McCann, Main Street, beside 2nd-hand store.

## Developing Hudson's Bay Route

Recent announcements of efforts that are being made to interest British capital and Federal provincial governments to aid in extending the sphere of influence and service of Churchill as the Canadian port of the Hudson's Bay route by construction of rail extensions to give direct connection between the Bay and the larger centres in the western provinces as well as the Pacific Coast are stimulating public interest in the possibilities of further development of this comparatively new trade channel.

The past few months has seen the birth of proposals that Winnipeg should be given direct connection with Churchill by construction of a road due north from that city which would cut off approximately one-third of the distance between the Bay and Winnipeg via The Pas; that a line should be built from Big River, Saskatchewan through the Lake Athabasca country, giving Prince Albert direct connection with Hudson's Bay and bringing Saskatoon closer; that a link should be made between that line and the Alberta Great Waterways Railway giving Edmonton and Calgary connection with Churchill and also, via Edmonton, a line from Churchill to Vancouver, using the existing C.N.R. main line from the Alberta capital to the B.C. coast port and finally, a suggestion of a more direct line between the Pacific Coast and Churchill through the Peace River country.

It is not likely that all these lines will be built at once, but so many advantages can be claimed for them that it is reasonable to believe extensions will be made from time to time, as the need for them becomes more apparent, and that in course of time, perhaps not so far distant, a more or less direct northern route from Churchill to the Pacific Coast will be an actuality. Just how long that will be is a matter of pure conjecture at this stage.

Some of the advantages claimed for these extensions are that they would make possible the development of the rich mineral lands in the north of the three prairie provinces with greater rapidity, that the shortened distances between Hudson's Bay and the larger western centres would result in decreased freight levies on many incoming and outgoing commodities and that a shorter overland route would tend to promote more tourist traffic between Europe and the Orient. It is also contended that the construction of a direct north route between the Pacific and the Bay would have distinct militaristic value in the event of Canada becoming embroiled with any aggressive Oriental power, since Vancouver would no longer be the sole practical outlet on the western seaboard.

While the military aspect has not been overlooked, the promoters of this new northern network of communications are more particularly interested in the value it would have in developing the trade and commerce of the country, its potential effect on the freer exchange of commodities between Western Canada and European countries and particularly Great Britain and its possibility in promoting more local trade.

With the prospective development of the mineralized areas of this vast north country becoming more immediate the last-mentioned objective is one which has immediate significance to the people of the western provinces and should be of particular interest to the farmers who, under existing conditions, are finding an urgent need of developing more and greater local markets for increasing varieties of farm products.

When the immensity of this great northland is reviewed and the undoubted great value of its resources is considered, the possibility of developing local markets for prairie farm products almost stretches the imagination. Because of the nature of the country almost everything required for sustenance of its workers will have to be shipped in and the natural and economically practical source of supply for such commodities is the contiguous agricultural belt.

Then, too, direct railways into the northland will lure tourists from the United States into a country which to them, as well as to the majority of Canadians, is a land of mystery with unparalleled attractions for the lover of the great outdoors and the sportsman. They, too will have to be fed on what the country affords, and this, it must be remembered is a strictly cash business. Moreover, tourists who can take excursions into such distant territory will not cavil at the few cents additional price they would have to pay, provided they can get the service they demand.

Although its first objective, the construction of a line to Hudson's Bay and of a port and terminal facilities at the northern seaboard has been achieved, the On-to-the-Bay Association does not consider its work completed and it is pleasing to note that the organization is continuing its efforts to make the venture a success in efforts to secure lower freight and marine insurance rates and to foster business via the comparatively new route.

When it is remembered that the Association only came into existence in 1923 its efforts have borne fruit of surprising magnitude in a very short space of time.

A Bactrian piece attributed to 235 B.C. is said to be the oldest coin extant. It was hammered from a crude copper-nickel alloy of Chinese origin.

**Iron the Easy Way**  
WITH THE **COLEMAN** SELF-HEATING IRON

Why You Should Have It

1. Costs only 1/2 as much to use
2. Lights instantly
3. Heats in a few seconds
4. Quickly ready for use
5. Maintains even heat
6. Hottest at the point of use
7. Irons with less effort
8. Saves 1/2 ironing time
9. No fire to build
10. No ashes to carry

Now you can iron in real comfort in any part of the house... even outdoors beneath a shade tree. The Coleman iron is self-heating. No cords nor connections. Carry & use anywhere. Several models available at low prices. Ask your dealer or write us for free illustrated folder and details. The Coleman Lamp and Stove Co., Ltd. Dept. 81317 Toronto, Ont.

**Did Not Act The Part**  
"What did you leave your job at the Goldplated Securities for? I thought you had a good thing there."

"I thought so, too, till I'd been there a week. I was secretary to the vice-president, but he was no vice-president at all. Why, he only took two hours and a half for lunch, and sometimes he'd stick around till four in the afternoon. I couldn't work for a man like that."

**President Of Municipalities**  
Alderman Andrew Smeaton, former Lethbridge member of the legislature, was elected president of the Union of Alberta municipalities at the closing session of the convention at Lethbridge, Edmonton was selected as the convention city for 1937.

Some would rather get in the other fellow's way than not be noticed.

## World Power Station

**Professor Believes Electricity Could Be Produced From Antarctic Gales**

Electricity made by Antarctic gales may soon be used to illuminate every home in the world, in the opinion of Prof. Frank Debenham, who was with Captain Scott on his ill-fated expedition and is now director of the Scott Polar Research Institute at Cambridge, England.

Prof. Debenham is confident that the present uninhabited south polar regions, nearly 5,000,000 square miles in extent, will one day house the great power-generating stations of the world.

"All round the continent," he said, "terrific winds blow from the high plateau, and one day these may be harnessed to wind-driven generators. But we should have to wait until we have radio-transmission of power before this inexhaustible source of energy could be connected with the rest of the world."

No human or animal life exists in the Antarctic because, even if they could survive the rigors of the climate, there is no plant life.

To counteract this, however, the professor said building of subterranean cities far below the ice-bound desolation and deadly blizzards of the Antarctic would not be fantastic.

Scientists now visualize the building of great subterranean caverns wherein cities can be erected, with complete scientific civilization, artificial sunlight, and air-conditioning which would put the climate under the control of man.

## WAKE UP YOUR LIVER BILE—

**And You'll Jump Out of Bed in the Morning Rarin' to Go**

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Harmful poisons go into the body, and you feel soured, run down and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

## Discover New Drug

**Announcement Made By U.S. Department Of Agriculture**

Outstanding success during the past year in use of a new drug for the treatment of burns, chronic ulcers and other non-healing wounds was announced from the United States department of agriculture.

Dr. William Robinson, scientist who brought the chemical known as allantoin into wide use after discovering its curative properties, said remarkable results have been obtained by physicians and surgeons throughout the country.

Speaking cautiously lest the drug might be regarded in the class of alleged cure-alls, Dr. Robinson said results thus far have led the members of the medical profession who have used it to extend the application of allantoin to the treatment of other external wounds which have failed to heal under other treatment. These have included infections of the mouth, diabetic ulcers, and the bone disease known as osteomyelitis.

## Looking Forward To Visit

King Edward VIII. looks forward to meeting on Vimy Ridge many of his former comrades of the Canadian corps, and is glad circumstances will permit him to unveil Canada's national memorial there July 26, according to a message received by Walter S. Woods, Ottawa, vice-chairman of the national Vimy pilgrimage committee.

## To Meet At Vancouver

The 44th annual convention of the National Council of Women will be held in Vancouver next year, the council decided at the closing session of its 1936 convention at Halifax. An invitation for the 1937 convention was extended by both Vancouver and Halifax, but a standing vote of the delegates chose the Pacific coast.

Frost never will occur when there is a wind blowing or when there are heavy clouds near the earth. A clear still night, soon after a rain in the frost season, is most apt to produce a frost. 2156

THERE'S something about cutting your own tobacco right off the plug that makes it taste fresher—and it smokes longer.

**DIXIE**  
PLUG SMOKING TOBACCO

## Great Road-Building Project

**Tunnel Under Bering Straits Would Link Alaska And Siberia**

Back in prehistoric times, it is believed, the Eastern and Western hemispheres were so closely linked that primitive man found it easy to direct his migratory movements from one to the other. If there was not complete union, there was at least a physical condition approximating it.

Now there is talk of restoring that condition by means of a highway that shall reach across the Arctic wastes of the Far North, to Yukon, Alaska, and thence to Siberia by means of a tunnel under Bering Straits. This plan is properly referred to as "the greatest road building project of modern times."

How much of this is an engineering dream and how much of it is based on the hope of profitable returns is not quite clear, although the statement is made that it is being given consideration by financial interests in both the East and the West. The vast mineral and oil wealth of the northland are some of the inducements that make the scheme attractive, it is said. Recent discoveries have revealed that there is a wealth of pitchblende, gold, silver, copper and other mineral deposits in the sub-Arctic regions. The estimated cost is placed at half a billion.

Certainly a project of this nature appeals strongly to the imagination because of adventure, profit and pleasure. It points to the future possibility of motor tours that will truly encompass the world.—Buffalo Courier-Express.

"Your son has a great thirst for knowledge, madam. Where does he get it?"

"He gets the knowledge from me and the thirst from his father."

## Science And Agriculture

**Continued Search For By-Products Benefits Farm And Factory**

Presence of undesirable mineral elements in straw has thwarted efforts of science to use it in paper-making and although the handicap may be overcome shortly by scientists, vastness of Canada's wood-pulp reserve will prevent widespread use of straw for paper-making, Dr. Harold Hibbert of McGill University stated in an interview at Edmonton.

Professor of industrial and cellulose chemistry for the pulp and paper research branch at McGill, Dr. Hibbert is leading the scientific movement to find new industrial uses for Canadian farm products. He is an authority on "chemurgy," a coalition of chemical and agricultural sciences.

Our greatest feat to date has been throwing of important new light on composition of plants," Dr. Hibbert explained in speaking of chemurgists. "We are continually searching for new by-products from farm produce and when we find one our discovery is of mutual benefit to farmer and manufacturer."

## Uses Electric Light

**Russian Agronomist Grows Vegetables Year Around In Arctic**

Vegetables are to be grown all the year around, in the Arctic, according to the agronomist Alexandrov, who claims to have raised lettuce, cabbage and parsley under electric light on Dickson Island, in Russia. Preparations have been made for planting cucumbers, tomatoes and eggplant. Dill, cabbage, sprouts and radishes will be raised in hothouses.

Movies in which actors "stand out from the screen" and appear in relief have been produced with experimental apparatus.

## WHENEVER YOU SERVE FOOD OR DRINK—

### SERVE

"RITZ"  
Nutty-flavored little Wafers, toasted to a delicate brown, that make good things taste better.

CRISBROWN  
Everybody's serving these tender, toasted Wafers, at teas, lunches, suppers, dinners, parties.

**Christie's Biscuits**  
"There's a Christie Biscuit for every taste"

## Information Given In Respect To Recording Operations On The Farm

Although agricultural accounting has a fairly long history and considerable progress has been made, some problems still remain unsettled and far too little use has been made of accounts by the average farmer. This is the opinion of W. F. Chown, Chartered Accountant, Dominion Agricultural Economics Branch, Ottawa, who discusses some aspects of agricultural accounting in the Canadian Chartered Accountant.

Mr. Chown recognizes the difficulties experienced by farmers in keeping accounts. "In contrast with the conditions obtaining in industry," he says, "consider the case of a farmer called from haying to ship some cattle. If he receives a voucher, probably it will be reduced to pulp in his pocket after several hours in the hay mow. Later he may rush to town to get an emergency repair and at his wife's bidding get groceries and buy shoes for the children. The difficulty of remembering these details until office hours will be apparent to any reader who has attempted to keep personal accounts."

Besides such physical difficulties as these in the way of proper accounting, the farmer has many special problems to solve because of the varied nature of his business. Real estate valuation is one of the first he meets. It commonly happens that the sum of the values of buildings and land is considerably more than the cost or market price of the whole farm. Mr. Chown advises either reducing the value of the separate parts proportionately until together they equal the value of the whole farm, or providing for the contingency of higher replacement costs by systematically building up out of profits a reserve for that purpose.

The rate to be charged for depreciation of machinery varies from farm to farm, according to the amount of service required from any particular implement. Live stock are both appreciating and depreciating assets and call for special accounting treatment. "I have found it quite practicable," says the author, "to treat sales and purchases of live stock as revenue and expense and to inventory live stock at the beginning and ending of the year."

Departmental accounts are necessary on a farm because of the different types of business done. Mr. Chown suggests setting up an adjustment account in addition. In this case the department making the transfer is credited with what the produce would realize if sold and the department to which the produce is charged is debited with laid-down cost at the farm. The entries are then completed by debiting and crediting an adjustment account.

"It is quite possible," says Mr. Chown, "that on many mixed farms each enterprise would be conducted at a loss, but the saving on the use of home-grown feeds and manures would be sufficient to turn the losses into a net profit. This alone is sufficient to lead me to believe that the farm can be studied best as a unit in which various combinations of enterprises may be carried on, one of which combinations will be more profitable than the others, rather than as several units under one operator any one of which can be considered independently of the others. Subject to this qualification, departmental accounts are of considerable value. This will not apply where specialization is carried to a high degree and other live stock kept and crops grown to provide power and subsistence chiefly."

The author goes thoroughly into the matter of accounting for farm produce used on the farm, board of hired men, car expenses, help provided by members of the family, etc. One quite practical method of setting up proper accounting systems, where farmers feel that they have not the necessary knowledge and experience, is for several farmers in a district to enter a book-keeping route. These farmers are supplied with account books, instructed in their use and visited

from time to time by a supervising accountant. At the year-end the necessary information for closing is secured by the accountant, the books are assembled and closed and reports are made to individual farmers. These reports analyze his business in comparison with other farms of a similar type on the route.

### Field Crops Of Canada

Gross Farm Revenue In 1935 Was 943 Million Dollars

Field crops are Canada's main source of agricultural revenue; Ontario and Saskatchewan the leading provinces. The gross farm revenue in 1935 was 943 million dollars and field crops accounted for about 507 million dollars, more than half of the total.

Saskatchewan is the great wheat province. Despite drought, rust and frost, the yield last year was 135 million bushels, or almost half of the 277 million bushels produced in the whole Dominion. Alberta came second with 102 million, Manitoba had 22½ million and Ontario produced 14 million bushels. The Prairie Provinces produce hard spring wheat while Ontario produces soft winter wheat. Saskatchewan is also the leading producer of oats. The crop last year was 132 million bushels out of a Dominion total of 394 million. Ontario was second with 85 million bushels of oats and Alberta third with 82 million. Saskatchewan and Manitoba were about equal in barley, with over 23 million bushels each. Ontario was third with 17 million bushels and Alberta fourth with 16 million bushels. Ontario is the principal producer of corn. Saskatchewan grew more than half of the rye.

The potato crop of the Dominion was about 39 million cwt. Quebec was the leading producer with 11½ million cwt., while Ontario was second with 7½ million cwt.

### Community Enterprises

People Of The West Have Not Yet Lost Their Courage

Despite numerous troubles, the people of the West are still filled with courage and ready to maintain a vigorous community life and to press forward with new development if given the least kind of a "break" in an economic way.

Community enterprises are being pushed forward vigorously, various organizations are being well maintained. The smaller towns and villages are showing that they are much alive. In the main, there is nothing much wrong with the great body of people in this Western country despite the hammering of fate and misfortune in the last five or six years.

Someone may say that there is not yet much to be optimistic about in Western Canada. However, the country is made by the people living in it.

A fearful people never made much of an impression in the world; a courageous people can overcome great obstacles. And at any rate, people must live. There has been a lot of pessimism, in which we have all been involved. A little more optimism may give us quite a lift along the way.—Regina Leader-Post.

### Artificial Fever As Cure

Artificial fever was advocated by three Colorado physicians as a cure for St. Vitus Dance. Thirteen cases of the nervous malady were given such treatment at the University of Colorado Medical School hospital, with complete recovery in each case they reported in the Journal of the American Medical Association.

### Find Big Gold Nugget

A gold nugget weighing slightly more than five pounds—one of the largest if not the largest ever found in the North Transvaal—was reported to have been found by a young prospector named J. J. Baker. The find was valued at \$2,500. 2156

### Farming Limited In England

So Far North Many Plants Will Only Grow Indoors

There are certain salient things about the geographical position of England, writes J. Sidney Cates, in the Country Gentleman. In the first place, this island kingdom is much farther north than we are prone to remember. Its agriculture is sharply limited by the high latitude. Draw a line west through Central England, and you hit Labrador on this side of the Atlantic.

Although you will see fig trees growing in Central England, the season is too short and too cold for corn to mature. Tomatoes and peaches will ripen only in a glass house where the trapped sun rays give added heat. Travelling over England in late August I wore an overcoat all the time. At night the temperature was frequently down in the forties, and a fire usually felt mighty good.

English farming is mainly grass farming, with only about one-fifth of the farm land devoted to crops. When you break down the statistical picture of the 48,000,000 acres constituting the United Kingdom of Great Britain and Northern Ireland you get a distribution very, very strange to our agriculture eyes. The arable crop land, or tilled and plowed land, is only a fraction over 10,000,000 acres. The rest is in grass, and the tendency is for grass to come more and more into its own. The 38,000,000 acres of grass land is further split up into 4,600,000 acres of temporary grass, 18,000,000 acres of permanent grass and 15,300,000 acres of what is termed rough grazing.

### Believes In Using 'Phone

King Edward Has One In Every Room He Uses

More telephones have recently been installed in Buckingham Palace. His Majesty is a firm believer in the use of the telephone, and he has given instructions for a telephone to be placed in every room of the Palace which he may use. The number of telephones at St. James's Palace and Fort Belvedere has also been increased. King Edward VIII., unlike King George V., uses the telephone on all possible occasions—he even puts through calls himself without the operator's assistance. All calls from Buckingham Palace are secret, as special devices prevent the operators from listening in.

### Did Not Include Canada

The St. Thomas Times-Journal says when United States newspapers refer to William Jennings Bryan as the greatest orator America ever produced they must confine America to the United States. Or else they never heard of Sir Wilfrid Laurier, premier of Canada, 1896-1911.

## University Of B.C. Engaged In Work Of Improving The Quality Of Poultry

At the University of British Columbia, under the keen scrutiny of Professor E. A. Lloyd, department of poultry husbandry, 2,500 juvenile representatives of the bluest blood in poultrydom are being weighed, measured and given thorough physical examination every fortnight.

U.B.C. scientists intend to produce a super-chicken which will wrest supremacy of the hen-yard from the present specialized fowl.

They are trying to develop strains of the various standard varieties which will be heavy egg producers and at the same time high-grade meat birds, instead of merely one or the other, as at present.

This change in the policy of the U.B.C. authorities, already famous for development of great egg-producing strains, is due to altered market conditions arising from empire trade treaties and the reciprocity agreement with United States.

These have opened up large markets for poultry meat, exports to Great Britain alone having risen from 600,000 pounds in 1931 to 2,365,328 pounds in 1935, with markets for 10,000,000 available this year if they could be supplied.

But, to capture the markets, Canada must produce a higher-grade bird.

Establishment of Dominion standards and inspection of export shipments has shown that less than 30 per cent. of Canadian birds attain the required quality for this trade.

Also, even with the healthy market prevailing, profitable meat production needs flocks that can also contribute a high egg production to the farmer's pocketbook.

It is the intention of U.B.C. poultrymen to produce such poultry.

Already they have had some success.

In preliminary investigations they have disproved the accepted theory that a good egg-producing bird cannot be a desirable meat type.

In fact, in most cases, the best U.B.C. layers have proved to be the best shaped, appearing and growing meat birds.

With the initiation of intensive work toward developing the best dual-purpose fowl, this year 2,500 chicks of the best laying stock of University flocks are undergoing intensive selection for best meat characteristics.

Every two weeks they are weighed and measured and accurate records of the development of each individual are kept, as well as the average performance of each strain.

They are watched for smoother,

plumper bodies, finer bone, quick growth and early feathering.

Tests show that chickens from 250 to 300-egg strains will grade as high as 60 per cent. grade "A", instead of the average 30 per cent. of Canadian poultry.

In addition, strains have been selected whose development is much more rapid than average.

Birds will weigh five to six pounds at 16 weeks of age, and are feathered and otherwise developed at each stage far in advance of the average for the age at which they are examined.

At the same time, egg production is kept at uniformly high levels.

Three advanced students from the faculty of agriculture are in charge under Prof. Lloyd.

Barred Rocks and Rhode Island Reds are the chief varieties included in the experiment, though a certain number of White Leghorns are also included.

It is hoped that the work will be far enough advanced next year so that some seed stock of the new dual-purpose strains can be distributed in the province. Large poultry interests have already purchased U.B.C. stock with the intention of making use of its quicker maturity and larger growth in improving the meat quality of their flocks while retaining a high rate of egg production. So far, however, none of the special strains have been released.

The Dominion department of agriculture is showing considerable interest in the experiments, as they tend to advance the department's plans for increasing Canadian exports of poultry.

U.B.C. poultrymen also believe that, if they can develop a breed which will be suitable for the European market and a high egg producer, the better quality fowl will stimulate Canadian poultry consumption.

### A Senseless Practice

Souvenir Hunters If Caught Should Be Heavily Fined

The experience which befell the Queen Mary in New York is similar to that which befell the crack British train, "Royal Scot," when it visited the Century of Progress Exposition at Chicago, some of the worst robbing of the train being done during visits to Canadian cities.

Some people will stop at nothing to obtain souvenirs. They even carried screwdrivers with them in the Queen Mary to take away a little "souvenir" of the ship. The loss is more annoying than serious, as some passenger may grumble over the omission of a little gadget which makes his cabin just short of perfect.

These souvenir hunters cannot keep their secret to themselves. The real satisfaction of taking away something is to boast about it to friends and exhibit it. If news of this kind should reach the ears of the police there should be prosecutions and sharp fines. It is a silly and senseless practice which should be cracked down upon.

Just imagine if we could not entertain guests in our homes without having to keep an eye on them for taking away "souvenirs." — St. Thomas Times-Journal.

### His Last Place

A very careful woman was engaging a new gardener.

"Have you any references from your last place, my man?" she enquired.

"No, mum, they wouldn't give me one."

"Why?"

"Oh," answered the man, absently, "I hit one of the wardens."

The building blocks of the great pyramid in Egypt averaged over two tons in weight.

Approximately 7,800 fatal accidents occur annually in British homes.

## Crewel-Work in Bright New Pattern

Household Arts by Alice Brooks

Large Easy Stitches Make Scarf or Pillow Design Grow Rapidly

### PATTERN 5513

Haven't you always wanted to do a bit of interesting crewel-work? Here's your chance, and you'll rejoice that this stunning design is so surprisingly easy to do. Some fine wool in a variety of colors, and just simple stitches, give pillow or scarf that "very expensive" look. You can use rope silk if you prefer.

In pattern 5513 you will find a transfer pattern of one motif 8½ x 10½ inches, two motifs 11 x 11 inches and two and two reverse motifs 2½ x 4½ inches; color suggestions; material requirements; illustrations of all stitches needed.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

## Good Sports Promised for Exhibition Day!

**S**PORT FANS will see a variety of sports on Exhibition Day, Wednesday, July 29. At 3 p.m. at the fair grounds Didsbury and Bowden football teams will tangle in a game that promises plenty of good football. Bowden has a strong team that has made quite a name for itself during the past few years. Didsbury has a well balanced team made up mostly of youngsters, with a few veterans to give the needed experience, and it is expected that the boys will give real opposition to the visitors.

At 5 o'clock on the town baseball diamond the local intermediate softball team will play against the strong Three Hills club. The Didsbury boys have been practicing faithfully in preparation for the provincial playdowns, which they have entered, and ask for the full support of all fans in this game, as funds are sorely needed to finance the playoffs.

Directly following the softball Didsbury and Cremona baseball teams will meet on the local diamond. Eric Moffatt, oldtime star of the Claresholm ball team, is coaching the local club. He is making fine headway in developing the boys into a snappy team, and promises real opposition to the Cremona crew. Cremona has a team that is making a good showing in the Bush League—so this game should provide plenty of action for the crowd.

One admission will be charged for both games: 25c will be asked of every adult and 10c from children under 14. This money goes to the providing of bats, balls and other equipment for the local teams and towards defraying the expenses of the Didsbury softball team in the provincial play-offs.

Come out and see two good games—while supporting the hometown boys.

### High Class Horse Racing.

A program of horse races, much superior to any held in Didsbury for many years, is promised by that committee at the Didsbury Fair on Wednesday, July 29. The harness races in particular, will offer real competition since quite a number of crack horses are coming from outside points. The committee is trying to get the horses from Red Deer after the race meet there, and if this is done, local people will see some of the best horses in Central Alberta perform.

### Dates of Principal Western Fairs.

The following are the dates of some of the principal fairs in Western Canada:

Edmonton—July 13 to 18.  
Saskatoon—July 20 to 25.  
Regina—July 27 to August 1.  
Didsbury—July 29.  
Prince Albert—August 3 to 6.  
Vancouver—August 26 to September 7.

### Local Sport Items

Rosebud Football League was re-organized at a meeting last Thursday night at the Didsbury Club's headquarters. Officers elected were: W. Ditchburn, Bowden, president; J. Cameron, Madden, vice-president, and W. R. Hartley, Didsbury, secretary. Bowden, Didsbury and Madden comprise the league this year.

Didsbury football team journeyed to Madden for the first game of the Rosebud Football League and after a hectic struggle, returned home on the tail end of a 4-1 score. A high wind made control of the ball very difficult and a rough field also added to the trials of the players.

Madden scored twice during the first half to once by Didsbury and in final half slammed two more goals past Holub, one of which was a fluke variety. Saving a hard drive from the 12 yard penalty spot, the Didsbury goalie had tough luck when the ball rebounded off a gopher hole and crossed the line.

Owing to injuries the Didsbury team was altered for the game and a number of young players were substituted in the lineup. The boys made a splendid showing and, with a little more experience, will be a great asset to the team.

Lone Pine Baseball Team chalked up another victory over the weekend when they took Selkirk into camp to the tune of 10-0. The Lone Pine boys played errorless ball, with I. Jenkins and R. Eckel twirling to Otto Faas, the catcher. Since all the boys are back in the district again, the team expects to have a successful summer. Any other club desiring games, communicate with the manager, N. Eckel, R.R. 2, Didsbury, by phone or mail.

Lineup of team—Otto Faas, Ed. Hehr, H. Strome, R. Lyons, G. Campbell, H. Campbell, L. Jenkins, I. Jenkins, R. Eckel.

## Trucks! Trucks!

DIDSBURY PIONEER—Established 1903

Local fishermen had unusually nice catches last weekend and some fine fish were brought in. Jack McCloy caught one of the largest trout ever taken from the Red Deer River, a six pound four ounce Dolly Vardon. The party had a dozen fish, all of which were of a good size.

Ed. Ford exceeded his record for a big fish when he caught a five pound trout that was just as long as Jack McCloy's but not so deep.

A special meeting of the Football Club is called for this Friday evening at 8:30, Pioneer Office. All members requested to attend. Invitations are issued to Messrs. Ed. Kercher, W. T. Pitt, J. W. Wordie, and Jim McDougall, to also attend. Thank you.—W. R. Hartley, Chairman.

Didsbury Baseballers played Cremona on the latter's diamond yesterday afternoon (Wednesday). As we go to press the result has not yet come through.

## THIRTY-FIRST ANNUAL

# FAIR & EXHIBITION

## Wednesday, July 29, 1936

Exhibits of Livestock, Agriculture, Horticulture, Home Products  
Fancy Work, Etc.

Didsbury Calf Club Fair Held In Connection With Exhibition.

Exhibit Entries Close July 25.

HAROLD BRENNAN, President.

No Entry Fees.

J. V. BERSCHT, Manager.

**Elkton Notes.**

E. P. Foster, M. L. A. will speak  
in Elkton School Wednesday eve-  
ning, July 22 at 8 o'clock. His  
subject will be "Prosperity Bonds"

Elkton visitors to Calgary Stam-  
pede were: Mr. D. Evans, Miss M.  
Evans, Leslie and Glen Evans, Mr.  
Campbell and Murdo, Mr and Mrs.  
A. L. Hogg, Tom Dobson, Miss  
Jean Edwards, Francis Byrt and  
Miss Frances Lynch.

Leslie and Phyllis Barnard and  
Mr. and Mrs. E. Fisher spent Sun-  
day with Mr. and Mrs. Byrt.

Welcome to the two newcomers to  
Elkton: a baby girl to Mr. and  
Mrs. Arnold Blain and a baby boy  
to Mr. and Mrs. Radke.

Mr. and Mrs. W. F. Brown  
spent the weekend in Banff and  
report plenty of rain up there.

Mr. and Mrs. D. Evans and Miss  
M. Evans, their visitor, were Sun-  
day supper guests of Mr. and Mrs.  
Harvey Hoesgood.

**Springside School Report**

Following is the result of the  
Public School examinations of the  
Springside School.

	Average
Passed to Grade VIII	
Cyril Brooke (Honors)	89
Sheriff Nelson	66
Passed to Grade VII	
Loraine McDonald (Honors)	78
Passed to Grade VI	
George Umbach	71
Dan McDonald	67
Passed to Grade V	
Jean McDonald (Honors)	83
Passed to Grade IV	
Clara McDonald (Honors)	89
Passed to Grade III	
Joan McDonald (Honors)	79
Teacher, Gladys Weiss.	

**Melvin Notes.**

Miss Clara O'Brien and her sister  
Mrs. Cascadden and Tommy, of  
Fort Saskatchewan, spent Thursday  
afternoon with Mrs. C. Youngs.

Word has been received from Mr.  
and Mrs. Ed. Parker of Gananoque.  
Mr. Parker's father passed away a  
few days after they arrived. Much  
Sympathy is extended to Mrs.  
Parker.

We are sorry to hear that Miss  
Sara Landeen is in Calgary under  
the doctor's care. We hope she soon  
will be able to return home

Misses Mildred Brown, Florence  
Bisset and Dorothy Youngs are  
attending Summer School at Ed-  
monton. They report about 2,300  
attending the school this year.

Miss Ruth Johnston of the Dids-  
bury Hospital Staff is holidaying  
with her parents, Mr. and Mrs.  
Peter Johnston.

We are pleased to hear that Mr.  
August Krebs has had the cast re-  
moved from his limb and is able to  
be around and is doing nicely.

**LOCAL & GENERAL**

Mr. and Mrs. W. D. Spence and  
Barbara left on Wednesday for Syl-  
van Lake, where they will spend  
their vacation.

Mr. and Mrs. Russell Berscht are  
spending their vacation at Sylvan  
Lake.

Want a Good Time? Then come  
to the Dance at Rugby School on  
Friday, July 17th. Good Music  
Gents 35c.

**Try a "CLASSIFIED"**  
**it will bring Results !**

**---Thank You.**

**Burnside Notes.**

Lone Pine Baseball Team played  
a return game Sunday, when the  
score was 10 0 in Lone Pine's favor.  
In the girl's softball game which  
followed, the score was reversed,  
Selkirk beating the locals by a wide  
margin.

Lone Pine W.I. met Thursday last  
at the home of Mrs. Bert Pross.  
Miss Marie Chambers gave a splen-  
did talk on "Cosmetics." Mrs. C.  
R. Liesemer was appointed delegate  
to attend the "Farm Women's  
Week" at Olds July 20 to 25.  
First prize in the custard pie contest  
went to Mrs. Eckel. This meeting  
was also the occasion for a shower  
in honor of Mrs. Fred Bolton (nee  
Helen Prose).

Mr. and Mrs. Duncan Morrison  
of Olds were Sunday visitors with  
Mr. and Mrs. N. Eckel.

Dick Metz spent a few days last  
week with relatives in Didsbury and  
also attended Camp Meeting.

Miss Ardalla Bittner, of Calgary,  
is holidaying with relatives here.

Mr. David Thoman, Ruth and  
Samuel are attending the Pentecostal  
Camp Meeting at Czar Lake.

Enroute to Banff, Mr. and Mrs.  
Spencer Burns and family, of Watts  
Alberta, visited the former's brother,  
Mr. George Burns and family.

Mr. and Mrs. George Kiever and  
Alvin are vacationing at the coast.

Mr. Hugh McLean returned Sat-  
urday from a six weeks' trip to his  
old home in Ontario.

Mrs. Walter McCoy and two  
daughters, of Didsbury, are visiting  
at the former's old home here.

Mr. and Mrs. Alf Weber and Mr.  
and Mrs. J. R. Good, of Calgary,  
were the weekend guests of Mrs.  
Reitzel.

Evening Service at Community  
Hall next Sunday, July 19, at 8:45  
p.m. Earl Archer will preach.

**SOCIAL CREDIT NOTES**

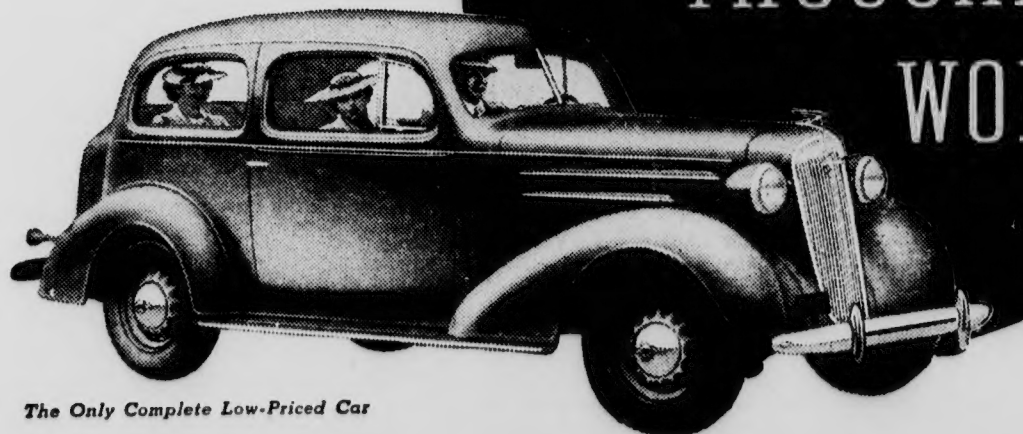

Didsbury S.C. Group No. 1 held  
its regular meeting Monday at the  
home of Mr. and Mrs. Andrew  
Peck. The president, Mr. A.  
Schwesinger, and Mr. N. D. Mc-  
Donald presented and explained a  
part of a social credit plan to the  
group for approval, which they  
worked out together and forwarded  
to the government for consideration.  
The reorganization under the new  
constitution was then thoroughly  
discussed. Mrs. Schwesinger in-  
formed the members with the good  
news, that Mr. Aberhart asked every  
M. L. A. to give his services free of  
charge to the government, to take  
census to organize the people for  
Social Credit and that dividends  
would be paid to the most needy  
first, in about 6 weeks time. Lunch  
and a lively conversation was then  
enjoyed. After spending a very  
profitable evening the members  
wended their various ways home.  
The next meeting will be held at  
the home of Mr. and Mrs. Schwa-  
singer on Monday July 27. Every-  
one interested welcome

Didsbury Pioneer S.C. Group con-  
vened at the home of the president,  
M. Weber on Monday evening.  
The subject studied was "The New  
Provincial Constitution." The group  
will not meet next week, but a joint  
meeting of all the Didsbury groups  
will be held at the Atlas Lumber  
Office on July 20 at 8 p.m. to study  
the new Constitution and decide  
about reorganization.

**Mountain View Notes**

Many friends and neighbors met  
at the Birdsall farm home on Tues-  
day evening June 30, as a surprise  
and farewell to Mrs. John Dunkley  
and Geraldine, who left for Quebec  
City and will sail on the SS. "Emp-  
ress of Britain" to Southampton,  
where they will be met by Mr. Dunk-  
ley and will continue their journey  
to Jersey Channel Isles, where they  
will make their home in the future.

## WORLD HAPPENINGS BRIEFLY TOLD

King Gustav of Sweden celebrated his 78th birthday recently.

Run-off from snows raised the level of Great Salt Lake in Utah 20 inches between November 15 and May 1.

The Evesham Psalter, dating back to the 13th century, was sold in London for \$12,000, to go to the British museum.

The ancient office of high constable of Miskin, dating from the 16th century, has been revived in Wales after a lapse of many years.

It took the House of Commons 12 minutes to pass a bill through all final stages to establish a commission to assist finding jobs for returned soldiers.

France's general federation of labor announced its enrollment had reached 2,500,000 members—double the number enrolled before the recent strikes.

At the present rate of increase, 200,000 a year, it is estimated Yugoslavia will have a population of 20,000,000 in 1960. In 1931 the population was 13,934,038.

The tariff board announced it would continue inquiries into the motor car and petroleum industries, in accordance with announcements made in the House of Commons by Hon. C. A. Dunning, finance minister, in the course of debates on budget items.

Work of a Brantford veteran, a small ivory casket has been designed for Woodstock veterans to carry to Vimy Ridge on the forthcoming Pilgrimage. It will contain ashes from wooden crosses to be burned in a ceremony in Woodstock and these ashes will be scattered on Vimy Ridge.

### Fine For Horn Tooters

By an enactment passed 52 years ago Tillsonburg, Ontario, motorists are still liable to a \$50 fine if they toot their horns in the streets. The bylaw prohibits the blowing of horns in the streets at any hour of the day.

### Photo Of New King

An autographed copy of the photograph of King Edward VIII., believed to be the first delivered in Canada, has been received by the Victoria Rifles of Canada. The photograph will replace the one of King George.

**Don't  
GAMBLE  
with  
MUSTARD!**

The cost of the mustard in any recipe is so small, why take chances by using anything but the best? When you use KEEN'S D.S.F. MUSTARD you KNOW you are getting ALL pure mustard—full of flavour and zest.

Made from seed grown in the Fens of England. Shells or hulls are removed and only the inner part of the seed is used. Super-fine grinding brings out the full mustard flavour.

In original tins for as little as 10¢

## Pioneer Bird Bander Active

Jack Miner Bands Over Twelve Hundred Canada Geese This Spring

It is a well-known fact that Jack Miner is a pioneer in tagging birds on this continent. He tagged his first duck in August, 1909, at Kingsville, Ontario. That duck was reported killed in January, 1910, in South Carolina.

He had to invent nets and contrivances to catch the various species he has tagged. That, in itself, was a task that demanded no little ingenuity and entailed no small expense.

To date he has tagged over fifteen thousand Canada geese. This past spring he made seven or eight catches, which totalled over twelve hundred in number.

These tags furnish invaluable information to the scientists, naturalists and game protective departments concerned in the study of the life, habits and migration routes of our birds. The authentic data so secured is used not only in the universities of the continent, but also by federal, state and provincial governments in both Canada and the United States. Such records demonstrate clearly where the largest percentages of migratory wildfowl are killed.

Each tag put on bears Jack Miner's name, post office address and the date, while in one corner is also stamped a selected verse of Scripture, this being Jack Miner's unique way of passing along God's word to the people who shoot this coveted game bird.

Each of the twelve hundred tags put on this spring carried such a Scripture message, so that Jack Miner calls them his "winged missionaries."

## Wheat Control Abandoned

Spain Is First To Part With Europe's Policy On Protecting Wheat Growers

The first important breach in Europe's policy of protecting domestic wheat producers by elaborate governmental methods can be attributed to Spain. The government of that country has given up policies providing for fixed prices, controlled sales and segregation of surplus stocks.

For twenty years the Spanish government has exercised control over the wheat industry in Spain and of late years these measures have had infinite variety. The objective has been to increase returns to producers while maintaining low prices of bread. The only regulation now in force compels mills to keep on hand one month's supply of flour. The government now has on hand about 14,000,000 bushels out of a surplus of about 22,000,000 bushels which was purchased to prevent disruption of the market last year. The government claims that the farmers have extended wheat seedling to unsuitable land, thus bringing about the possibility of a continuous surplus. Wheat is a basic factor in the wealth of Spain, representing about 25 per cent. of the total value of all agricultural production.—The Budget.

### Thinks Women Too Free

A Duchess who urges domesticity and claims women have carried their crusade for freedom too far was in Toronto recently. The new freedom has done a great deal of good, but now I believe women are too free for their own happiness," Duchess Carofa D'Andria of Naples and New York declared.

### Breakfast Most Important

Everyone should eat an adequate breakfast. If one meal must be slighted, let it be luncheon; but let every man, woman and child eat enough breakfast to take him through the morning.

## Plans New Super-Liner

Naval Officer Believes Ship Would Accommodate 10,000 Passengers

Vladimir, Yourkevitch, erstwhile Czarist naval officer and designer of the hull of the Normandie, arrived at New York by the French liner Paris. M. Yourkevitch carried plans for a possible new trans-Atlantic liner of 100,000 tons of gross, 25 per cent. greater than the Queen Mary.

Looking across to the adjoining pier, where the Queen Mary lay, M. Yourkevitch pictured his new liner as capable of developing 260,000 horsepower, racing 36 knots, and accommodating 10,000 passengers.

Wrangel Island, Eastern Siberia, has just bought the first motor-cycle ever seen there.

If you want to stay a dictator you must keep the people staying mad at somebody.

## Rescued By Chamberlain

Chancellor Of Exchequer Waded Into Lake After Small Boy

Forgetting his grey top hat and morning coat, Neville Chamberlain, chancellor of the exchequer, waded knee-deep into St. James Park lake to rescue a four-year-old London boy. Chamberlain was walking in the park, within sight of both Buckingham and St. James' palaces when he heard a woman's screams. He hurled a railing, strode through the water, grasped the lad and handed him over to his mother. Then, his striped trousers dripping water, he hurried away to nearby 11 Downing street.

An average of more than one person a week is killed on railway grade crossings in Great Britain.

The chestnut blight is the most virulent and destructive disease of forest trees ever recorded.

## LOUIS MEYER MAKES NEW RECORD

Well known to thousands of Western Canadians, Louis Meyer again won the grueling 500-mile annual race at the Indianapolis Speedway and established a new record of 109.06 miles per hour. Meyer is the only man to have won the race three times. Many readers will remember his having raced in a rubber-tired tractor at the Fall Fairs throughout Western Canada several years ago. In his opinion the new speed records and absence of fatalities in the daring race are largely due to high speed tire developments. With the question of tire safety no longer a factor, Meyer says drivers' confidence and freedom from worry have greatly improved their driving ability and opportunities. Firestone tires were used.

## Lovely Crochet Has a Practical Use

Uses

### PATTERN 5639

Who of us ever has enough doilies! Here's a lovely, lacy pattern that's quickly multiplied to give you as many doilies and place mats as your heart desires. Just humble string makes the three practical sizes, which are indispensable for Summer or year 'round hostessing. You can do them entirely in one or in two colors.

In pattern 5639 you will find complete instructions for making the doilies shown; an illustration of them, and of all the stitches needed; material requirements; color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

## Treaty Money

Agents Travelling By Plane Will Visit Indians In Various Provinces

Treaty money is winging its way to the Indians of northern Ontario and Quebec, the annual payments agreed upon under ancient conventions being disbursed this year by Capt. George Patrick of the Indian affairs department. Capt. Patrick set off from the Rockcliffe aerodrome with valises full of cash.

Before he returns to Ottawa the "paymaster" of the Indian treaty money will have covered 4,000 miles and will have distributed to Indian agents throughout that territory approximately \$50,000.

Agents are making treaty payments throughout Canada this year, each accompanied by a medical officer. They travel by aeroplane.

One plane leaves Lesser Slave Lake and covers the reserves along the Peace river. The western end of the Churchill river in Saskatchewan is covered by a plane leaving Meadow Lake, and the eastern end by one leaving Carlton.

The eastern section of Saskatchewan and northwestern Manitoba are combined, the plane leaving The Pas and making payments to reserves along the Burntwood and Nelson rivers, and on Reindeer lake.

The annuity varies according to the rank and standing of the recipients. Normally \$25 a year is paid to tribal chiefs, \$15 to headmen and \$5 to individual Indians.

## Fatal Motor Accidents

Avoid The Mounting Death Toll By Being A Careful Driver

Worn tires resulting in blowouts while travelling at high rates of speed, skidding at corners, or insufficient tread to be effective when the brake is applied frequently cause fatal automobile accidents. The careful and conscientious driver is always certain that all parts of his automobile, including the tires are as reliable and effective as possible. Help halt the mounting number of deaths because of car accidents by being a careful and conscientious driver. Refuse to drive or travel in an automobile unless it is equipped with sound, sturdy, sure-grip tires.

A new upholstery fabric for seats on trucks and buses is reported to stand hard or "even abusive" wear under all climatic conditions.

## FLEMING'S FOLLY

— BY —  
LAWRENCE A. KEATING

## CHAPTER XVIII.

Her face became white and Helen uttered a gasp of dismay. She took a step back as if dumbfounded while Link, feeling his discomfort heightened, avoided her accusing eyes. He scarcely noticed Matt Benson, the renter of a small parcel of ranch land from Kilgo, mutter an exclamation behind him. Benson stared an instant, then turned and scurried off to reveal the precious morsel of news he had just chanced to overhear.

At that moment Ed Porth, Fleming's rider, approached from behind and touched his boss's arm. He turned slowly to find the man tense with suppressed excitement.

"Link," he exclaimed, "I saw that hombre in the checkered shirt. He just went through the back door of the bank!"

"The bank?" A frown slowly rippled his forehead. He saw Porth nod. Waco and the other stopped at that moment, and were quickly apprised of this discovery.

"What yuh goin' to do?" Byrne's uneasy eyes noted Roper at the lead of loungers and cardplayers emerging from the Half Moon.

"We're going in the bank, of course! Funny it didn't occur to me to look there. Helen, did you hear that? You'd better move over near the hotel," he went on in a low tone. "There's no telling what might happen now."

He turned back to the men. "How long ago, Ed?"

"Just a couple of minutes. That back door ain't usually open, is it?"

"No. You skip back and watch; he might come out and lose himself again. Waco, you'd better go along. Drew can go with me, and Haltby, you stay out front just in case. If you see the others, call 'em over. But keep this as quiet as you can; there's no need to upset the whole town."

"We're too late to keep it quiet,"

**There is no guess work in the milling of Purity Flour. Twice-daily baking tests by our laboratories ensure even, dependable and uniform quality. Enjoy the finest cakes, pastry, rolls or bread you ever tasted. "Purity" goes farther.**

**PURITY FLOUR**  
*Best for all your Baking*

door. You claim you haven't seen him?"

Did the man's face pale somewhat? "N-no, of course not!" He glanced about as if seeking the hold-up, fearful lest he might be in the bank unknown to himself and Jimmy Farlane.

Link hesitated. This was a risky business, and he was by no means positive there had not been some mistake. "Drew," he called over his shoulders, "do you think Porth might be wrong?"

"No, sir, he shore saw the guy, Link!"

"But for heaven's sake, gentlemen, we don't entertain holdups in this institution! Why, do you mean—"

Pieper left off, swallowing hard. His eyes fixed on the sixgun Fleming drew slowly and held in his hand. Its ominous muzzle was pointed at Otto's heart. "Reckon you better turn him over," he stated in a flat, determined tone. "That gent is in your bank and we want him!"

Silence. Pieper, his mouth wide open, raised trembling hands to ear height. A rasp of bootheels made both Star Loop men turn to glance at the front door. Link's eyes clashed with those of Roper Kilgo, pausing on the threshold. Two curious faces peered over his shoulder, Benson and Buzz.

"Bank robbery!" Kilgo yelled, pulling back. "Fleming's holdin' up the bank!"

The full significance of this alarm required brief time to reach Link's brain, so utterly ridiculous was the assertion, of course. Growls sprang from other men behind Kilgo. Then, with cries of "Let's get 'em!" and "Bank robbery—help, help!" they surged forward.

Pieper stood as if transfixed. Link for the moment was indecisive—and that hesitation made any bold movement too late. For with Roper, Benson, and Howland in the lead, and an increasing crowd of townsfolk summoned by the endless chain of startled cries up and down Main Street, the men swarmed about him with guns bristling, faces charged with the threat to kill.

He had no cause to shoot, so merely stood scowling. "Hold on!" Link jerked away angrily as someone clutched his arm. "I'm here after the guy that held me up and stole my steer money; he was seen comin' in this bank!"

"It's a lie! Boys, look out for this man—he's got a gang with him. Grab Drew!" Kilgo yelled. And before Mike could move he was seized.

Roper grunted. "Some more of yuh go outside. Get Haltby and Byrne and Laverty. What does a man bring a lot o' gun-throwsers to town for an' surround the bank? I tell yuh, boys," he yelled as the interior of the institution became packed with breathless, excited humanity, "Link ran out o' money. He knows that crazy scheme o' his—Fleming's Folly—is goin' busted."

"What does he want to pull this job for?" he cried again. "I'll betcha he was going to leave town. Shore. Ain't Jackpot Mell lookin' for him?"

Just then the tall, angular figure of the gambler made its way to the fore. "Yuh bet I'm after him," Mell growled nastily, his cold agate eyes travelling up and down Fleming's frame. "And right now I've got him, too!"

"Hold on, Jackpot—yuh can't pull a shootin' here!"

"Anyhow, we don't want him shot!" bawled someone deep in the milling throng. "Let's lynch the damned bank robber. Done all he could to bust this country an' victimize us ranchers, ain't he?"

Link strove to get free. But his gun was gone, and ready hands gripped his arms, holding them behind him. Struggle as he might he was a prisoner, white-faced and tense, facing the crowd of hostile townsfolk and ranchers whose vengeance was swiftly being aroused by the cupidity of Kilgo and Mell.

"Wait!" he yelled. "I tell you I was held up. Ed Porth saw the guy come in here—"

"Outside!" cried someone. "Let's have a necktie party!"

The proposal struck a responsive chord. "That's it—let's hang him!"

"He can't rob our bank an' get away with it!"

"That holdup's all talk. It's a lie."

## Firestone Tires Lead in Performance Records

**Firestone**

Performance is the best proof of tire value. For seventeen years at the Indianapolis Speedway, at Pike's Peak and Lake Bonneville, Firestone Tires on the winning cars have proved themselves the safest and most enduring. Equip with the tires that Champions use — see your Firestone Dealer today.

Link meant to stick up Otto and then make a getaway."

"Yeah—and leave the girl flat. Why, the Hamilton spread is practically busted right now!"

Amazement flooded over the Star Loop owner's face—sheer disbelief that such viciousness could be touched to life in the hearts and brains of these folk. Always friendly to him, they had suddenly sparked to hate—and why? How was it possible?

He knew, of course; it was plain. The unceasing, crafty work of months by Roper and Mell. The hitherto undisputed leadership of Kilgo was now reaping its harvest. To have followed irrigation when he did not believe in it was a serious enough crime; but actually to have won Roper's intended bride away from him—that was forever unforgivable.

Jostling, bawling, milling, crying out epithets and insults, the throng crashed and elbowed its way out of the bank. Otto Pieper stood watch as a man struck dumb. Then he followed, automatically, blinking, clearing his throat, tugging helplessly at his watch chain as he saw the surging mob burst through his front door and into the street. Otto could not absorb all this. He was dumbfounded.

"Where'll we hang him, boys?"

"How about Iron Spring?"

"Naw," snarled a red-bearded ruffian, "that's too far. Why not use that pole in front o' the jail?"

This seized the fancy of the mob. Cries of approval greeted the suggestion, and everyone moved down the street. In the crush of sweaty, profane and vengeful humanity Fleming was mauled and shoved, cursed and kicked along with the irresistible tide. His protests were futile and unheard for the threats of rage on all sides. There was no reason here, but only blind frenzy—the desire of the locals to protect themselves against something they did not understand but had been educated to fear.

That something was progress. The progress of irrigation. By his stealthy work, his astuteness and cleverness dating from the day before the ranchers' meeting last Fall, Roper Kilgo had laid this groundwork. Now he was to reap his harvest, using Rawhide citizens to wreak vengeance.

The czar of Boone County was to have his unquestioned sway endorsed!

Link realized the error of drawing his gun there in the bank. He had done it to spur Otto, to prevent precious minutes wasted. But discovery of the tableau had given Kilgo his chance—and he did not miss it. There was no cry, not even that of "Fire!" that would rock these people into so terrific a rage as the yell of "Bank Robbery!" And Roper knew it. It would soon be noon.

Link caught a glimpse of Helen Hamilton's drawn face at the fringe of the throng. She cried out something to Roper but was ignored. Waco, Byrne and Drew had been roped by eager hands to the hitch-rail before the bank; glancing back he spied them, saw their futile struggles to release themselves. His other riders, he thought, were prisoners too.

Link's heart sank. The din about his ears rose to a crescendo of hate. "Tried to wreck the hull county!" bawled someone.

"So yuh finally turned bank rob-

ber, eh?" another man flung in his teeth. "Well, I ain't surprised!"

Fleming tried to answer, but at that instant his captors gave a terrific jerk. He all but fell and was dragged to the tall cedar pole that stood before the adobe jail. Someone was climbing it to string a rope through the iron ring at the top. It was meant for a flagpole, to be used on holidays. Now it was to be the means of a lynching, the anger of a mob gone mad with insensate hysteria.

(To Be Continued)

## Little Helps For This Week

For I am persuaded that neither death nor life, nor angels, nor principalities, nor powers, nor things present or things to come, nor height nor depth, nor any other creature shall be able to separate us from the love of God which is in Christ Jesus our Lord. Romans 8: 38-39.

I know not what the future hath. Of marvel or surprise, Assured alone that life and death His Mercy underlies. I know not where His islands lift Their fringed palms in air. I only know we cannot drift Beyond His love and care.

Be of good faith, fear not those things ye may be made to suffer, either outwardly or inwardly, but trust the Lord over all and your life will spring, and grow, and refresh you, and you will learn obedience and faithfulness by your sufferings. The Lord will teach you the very mystery of faith and obedience, the wisdom, power and goodness of the Lord will order everything for you.

## Not Much Difference

Study of the Browns Valley man, found in Minnesota, indicates that men who lived in North America 12,000 years ago were very much like present-day Indians, according to Prof. A. E. Jenks of the University of Minnesota.

Beech, birch, maple, sap, and regum are reported as being used in largest quantities for handles of tea kettles and coffee pots.

If some men were to lose their self-conceit there wouldn't be much left. 2156

## LOCAL & GENERAL

Westerdale Club Sports Day and  
Dance, Wednesday, July 22.

Miss Elsie Goertz was a Calgary  
visitor last Saturday.

Frank Carleton left Saturday on  
a vacation to be spent at Vancouver.

Mr. and Mrs. J. A. McGhee were  
Calgary visitors last Friday.

Mrs. R. A. Gulliver is holidaying  
at Vancouver, having left on the  
Shrine excursion train last Saturday.

Mrs. Eva Hopkins of Los Angeles  
is spending a vacation with her  
mother, Mrs. Sexsmith.

Have you tried a pair of Carhart's  
Overalls, "None Better." For sale  
by T. E. Scott.

Mr. Gordon Boettger left on Sat-  
urday to visit relatives at Vancou-  
ver for two weeks.

Mr. and Mrs. George Meyers, of  
Myleen, Sask., are Didsbury visitors  
this week.

Mr. and Mrs. J. W. Halton took  
in the finals of the Calgary Stampede  
on Saturday.

Mr. and Mrs. Ed. Ford with Mr.  
and Mrs. Allan Vipond were Calgary  
Stampede visitors on Friday.

Mrs. Mack Hearst of Edmonton  
is visiting the home of her parents,  
Mr. and Mrs. H. Pearson.

James Gregg, of Trochu, renewed  
acquaintances with old friends here  
last Friday.

Try T. E. Scott for all lines of  
Men's and Boys' Summer Footwear.

Miss Annie Currie has gone to  
Edmonton where she will attend  
Summer School.

Miss Enith Hunsperger, of Ed-  
monton, visited the home of her  
parents, over the weekend.

Misses Iva and Sevilla Rupp left  
on the Shrine excursion for Vancou-  
ver and Seattle where they will  
spend their vacation.

We notice that Hank Bolander, of  
Bearberry, received fourth prize in  
the wild horse race at the Calgary  
Stampede, Friday.

Bring your Prosperity Bonds to  
T. E. Scott. We will accept them  
at par in exchange for goods.

Gerald Boettger is spending his  
vacation at Edmonton. This week  
he is taking in the Edmonton Exhi-  
bition and Stampede.

Mrs. W. Morrow of Lethbridge  
who has been visiting with her  
parents, Mr. and Mrs. H. M. Reiber,  
returned to her home Monday.

Alf Brusso, Tom Royds and Alf  
Durrer left Saturday on a two-week  
trip through the Rockies and for  
further destinations unknown.

July 21 is the day arranged to fix  
up the Fair Grounds in preparation  
for the 29th. Anyone interested  
please come with a hammer and  
a saw.

Bob Eubank and Bill Ross are  
away on a weeks trip through the  
mountains. They will take in all  
points of interest on the Banff-Win-  
dermere road.

Mr. and Mrs. Friesen with Mr.  
and Mrs. Fleury have left on a two-  
week tour that will take them  
through Portland, Seattle, Vancou-  
ver and Victoria.

Mrs. E. G. Ranton, Miss Dorothy  
Ranton and Miss Jessie McCoy left  
Monday for Penticton, B.C., where  
they will visit at the home of Mr.  
and Mrs. W. J. Hillyard.

Mrs. Chas. Brown, with Mr. and  
Mrs. A. G. Smith, left last Monday  
for Vancouver, Victoria, Powell  
River and Chilliwack, where they  
will visit with friends and relatives  
for a month.

Remember to bring your Binder  
Canvas in early and have it properly  
repaired before cutting begins—  
T. E. Scott.

Among the Didsbury people seen  
at the Calgary Stampede on Sat-  
urday were: Mr. and Mrs. Ed. Watkin,  
Mr. and Mrs. J. W. Halton, Mr. and  
Mrs. H. Tigh, Mr. and Mrs. A. Peck,  
Mr. and Mrs. W. MacFarquhar;  
Messrs. Dave Jenkins, Doug. Rob-  
ertson, Kenneth Burns, George  
Royds, Everett Blain, Harry Klein,  
Milt Ford and Miss Lucille Smith.

Mr. Ed. Boettger was a business  
visitor to Calgary last Saturday.

Mr. and Mrs. Glen Lewis of  
Claresholm are visiting at the home  
of Mrs. Lewis' mother, Mrs. Wm.  
Rupp.

Mrs. J. A. McGhee was a Carstairs  
visitor last Tuesday at the home of  
her sister, Mrs. A. H. Boyce.

Mrs. Henry Weber, of Calgary,  
was visiting with friends and rel-  
atives in the district during the past  
week.

Mr. A. H. Foote with sons Eldon  
and Delmar, left on a fishing trip  
that will take them to Banff, Sunde-  
re to the Big Red and on through to  
the Clearwater.

The annual Little White Rib-  
boners' picnic will be held at the  
home of Mrs. Ed. Boettger on Fri-  
day (tomorrow) at 3 p.m. All child-  
ren under 7 years and their mothers  
are specially invited.

Mr. and Mrs. H. E. Pearson  
motored to Edmonton Wednesday  
morning, where they will spend a  
week, visiting at the home of their  
daughter, Mrs. Mack Hearst.

The Crystal Dairy followed up its  
splendid win at Calgary last week by  
taking a first prize for May butter  
at the Edmonton Exhibition this  
week.

We are pleased to announce that  
Miss Bernice McGhee, who recently  
underwent an operation for appen-  
dicitis at Calgary is now out of  
the hospital and doing well. She  
is expected home this week.

Ray Lantz moved this week into  
his new building south of the Mas-  
sey Harris agency. He will handle  
a complete line of electrical supplies,  
radios, cream separators, washing  
machines, stoves etc. and other  
farm machinery.
